

The **Hopper Topper Power Lift FS** transfer pump will help keep your production flowing smooth 24/7. With our gentle pumping technology, your product will be quickly transferred without sacrificing quality.

Benefits:

- Pump designed to simulate hand scooping (gentle on your product)
- Ergonomic Power Lift allows operator to change bowls with no lifting
- Optical Product Sensor allows you to maintain product level in hopper resulting in improved portion control and continuous production
- Versatility fits most mixing bowls from 60 to 340 quarts
- Tool free disassembly for quick and easy clean-up

Features:

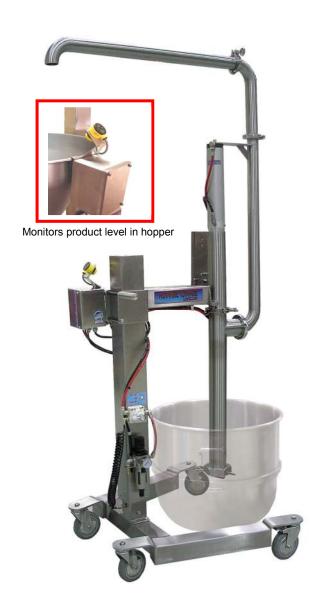

- 3" (76mm) diameter pump with 2" (50mm) outlet pipe work
- Start/stop air connection and fitting
- Mobile all stainless steel construction stand with adjustable height to suit customers mixing bowl
- Flow control to adjust pump speed for different products
- Ergonomic Power Lift Technology

System Includes:

- Standard and Extended depth versions available
- Start/stop air connection and fitting
- Automatic start/stop hopper level Control Sensor in a NEMA 4X control Box

Performance Specifications

Speed

Variable with Air Pressure Regulator

Power

Air: 4 CFM @ 100psi (226.5 litres / min @ 6.9 Bar) Electric: 110 – 220 VAC, 1amp

Volume

3 to 13 US (11 to 49 liters) gallons / min.

Particle Size

Up to 1" (25mm) cube soft fruit or similar

Note: Equipment is designed to run at the speeds given, but is dependent on operator efficiency and skill, as well as deposit size and product consistency.
